It’s not where you start. It’s where you end up.

NYU-SCPS Paul McGhee Division

An NYU Degree is Within Your Reach
The McGhee Advantage

McGhee Division programs adhere to a rigorous academic standard, while providing convenience, flexibility, and exceptional support services to help busy students succeed. As a McGhee student, you will enjoy the individualized attention for which small colleges are known, combined with the unrivaled benefits of being part of one of the largest and most prestigious research universities in the country.

What makes McGhee the right choice for you?

Academics. The range and diversity of McGhee undergraduate programs offer unparalleled opportunities for intellectual stimulation and professional growth. Our bachelor’s degrees provide rigorous curricula that enable you to acquire knowledge that is immediately applicable in your life and in your work. You will build your critical and analytical thinking skills, gain academic insight, and develop personal and professional relationships that will change your life.

Seamless Transfer of Credits. Students who are contemplating transferring into McGhee from a two-year community college or a four-year college may transfer up to half of the credits required for their degree. To accept the transfer of credits, a McGhee administrator carefully evaluates your college transcript(s) to determine applicability of previous coursework to your selected program of study. There is no minimum requirement for the number of credits you need to transfer into McGhee.

Multiple Financial Aid Options. Qualified students may be awarded up to $7,000 per academic year. Scholarships are based upon financial need and academic potential, and are awarded after completing the FAFSA. Visit our website www.scps.nyu.edu/aid.mcghee for more information.

Personalized Advising and Support. At McGhee, we are committed to your success. We understand the concerns you may have about returning to school or about transferring from another college or university. McGhee’s supportive community of staff members, academic advisors, faculty members, and professional tutors is always available to help you along the way.

Faculty Members. McGhee students benefit from being taught by full-time faculty members (90% of whom hold a Ph.D. or the highest professional degree in their field), and more than 150 practitioner adjunct professors. Committed to teaching, research, and bringing what is current in the workplace to the classroom, McGhee faculty members offer a wealth of knowledge and expertise in a variety of subjects and professional fields.

Flexible Schedules. Evening and weekend classes, intensives, and online degrees and courses cater to students who are often balancing personal and professional responsibilities. Flexible course schedules and formats ensure that you can earn your degree as quickly as possible, in a way that fits your busy lifestyle.

McGhee Academic Offerings

Invest in Your Future—Earn Your Degree at McGhee

McGhee undergraduate programs integrate the liberal arts and professional studies, providing an undergraduate education that is of high value in competitive job markets. As a McGhee student, you will hone your critical thinking and analytical skills, increase your knowledge base, develop your intellect, and acquire the confidence to excel personally and professionally.

Taught by faculty members and supplemented by an array of academic support services geared for students like you, McGhee programs of study challenge you and provide you with a solid foundation for developing intellectually, while learning skills that are valuable in the work environment. Whether you are certain about what you wish to study, or you prefer to explore several options before you decide on a direction, McGhee may be the right choice for you. Our seamless transfer credit policy can help to accelerate your progress towards earning your degree.

Explore our degree offerings below, or visit www.scps.nyu.edu/mcgheeadmissions292 for more in-depth information.

Degree Programs

B.A. in Humanities

The B.A. in Humanities provides a strong pre-professional education in the liberal arts. Students acquire the writing, critical thinking, aesthetic, and analytical abilities required to pursue a graduate degree, or to advance in their careers. The broad-based humanities curriculum encourages them to think in the cross-cultural and multi-disciplinary way needed to succeed in today’s increasingly globalized business, cultural, and communication environments.

Concentrations
- Art History
- Creative Writing
- Literature

B.A. in Social Sciences

Analyze fundamental questions at the core of today’s most critical social, cultural, and political debates—and understand their historic context. This degree serves as a foundation for students interested in pursuing a career or a graduate or professional degree in a variety of fields, from global affairs and law to social services and the behavioral sciences.

Concentrations
- Anthropology
- Economics
- History
- International Studies
- Media Studies
- Organizational Behavior and Change
- Politics
- Psychology
- Sociology

B.A. in Applied General Studies

The Bachelor of Arts in Applied General Studies addresses the demand for an interdisciplinary major that allows students to design their own plan of study and combine courses across disciplinary boundaries, thus helping them better address academic and intellectual aspirations as well as employment goals. The curriculum is drawn from McGhee’s bachelor of arts degree programs and its professionally oriented bachelor of science degrees, as well as undergraduate-level courses from other divisions in the NYU School of Continuing and Professional Studies (NYU-SCPS) and NYU as a whole. In developing a plan of study, students work with their McGhee advisor and an assigned faculty mentor.

B.S. in Digital Communications and Media

Develop in-depth knowledge of, and skills relevant to, a variety of digital media technologies and formats that meet the increasing demand for expert professionals in the global creative industries of film, digital media, and communications.

Concentrations
- Interactive Media: Web and Mobile Devices
- Time-Based Media: Video and Motion Design

B.S. in Healthcare Management

For students interested in beginning or advancing a career in healthcare, this distinctive professional program equips you for employment in organizations such as ambulatory care facilities, residential healthcare settings, group practices, health maintenance companies, community health settings, government agencies, and hospitals.

Concentrations
- Community Health/Healthcare Advocacy
- Long-Term Care
Core Curriculum

Central to a McGhee education is a strong foundation in the liberal arts. An academic requirement that all McGhee students must fulfill, the 32 to 34 credits of liberal arts core courses provide critical information and develop a broad range of competencies that afford the basis for more specialized and professionally oriented study. The curriculum is enriched by McGhee’s access to the exceptional cultural, economic, political, creative, technical, and business resources of New York City.

Alongside peers and faculty members, in and outside the classroom, you will engage in, learn from, and lead dynamic intellectual explorations and shared experiences. You will learn to communicate complex ideas effectively through core courses that will help you to develop precise and persuasive writing skills. The core curriculum provides broad conceptual understanding and critical insights—in science, history, culture, and the arts—that strengthen creative and analytical thinking and reasoning abilities. The knowledge and the skills that you will acquire will provide the context and the methodological approaches essential to understanding and to solving the real-world challenges that you will face in almost all personal and professional arenas.

B.S. in Information Systems Management

As you are guided by expert practitioner faculty members, acquire the critical analysis, technical, and communication skills to solve complex problems and to integrate new technologies in careers in information systems.

Concentrations
- Network Management and Security
- Database Technologies Management
- Enterprise Systems Management
- Website Design and Development

B.S. in Leadership and Management Studies

This multifaceted, business-oriented degree provides students with knowledge and skills that can be applied across numerous industry sectors. Students develop core competencies to meet the rising challenges and to take advantage of the opportunities of a continuously evolving global economy.

Concentrations
- Human Resources Management
- International Business and Global Management
- Marketing, Advertising, and Public Relations
- Organizational Management and Development
- Sustainability Management and Development

B.S. in Real Estate

Offered in cooperation with the NYU Schack Institute of Real Estate, this degree equips entrepreneurial-minded individuals with a business foundation and an advanced knowledge of real estate finance, law, market analysis, and construction.

Internships

McGhee internships enable students to earn credits while gaining valuable academic and/or professional experience. These internships provide you with the opportunity to apply what you’ve learned in class to the working environment. They also help to build your professional network and to expand your skill sets. Internships can be pursued as an alternative to the senior project.

Internship coordinators collaborate with students to secure positions at a variety of commercial entities and nonprofits. McGhee students have interned at government offices, television networks, museums, health organizations, public relations firms, and media and publishing companies among others. Examples of just some of the companies and organizations where our students are placed include: Newsweek; Morgan Stanley Smith Barney; Merrill Lynch & Co.; Sotheby’s; the American Museum of Natural History; the American Red Cross; and media companies such as NBC Universal, ABC, PBS, and MTV.

McGhee students also have access to the internship resources offered by the NYU Wasserman Center for Career Development and are eligible for its Funded Internship Award, which provides internships with nonprofits.

Career Development/Management Services

As an NYU-SCPS student, in addition to the career resources offered through your academic program, you will enjoy the benefit of career development/management services provided by the Wasserman Center for Career Development at NYU-SCPS. A broad range of events, programs, and customized services, including personalized career assistance, job transition guidance, industry-specific information, and specialized resources, are available to enhance your overall learning experience.

The Wasserman Center for Career Development at NYU-SCPS helps all NYU-SCPS students to take advantage of the University’s New York City location and the internship and professional opportunities it affords. The Center posts job listings, connects students with alumni and mentors, coaches students on the most effective interviewing skills, and provides career advice. Visit www.scps.nyu.edu/wasserman.
Academic Support Services

McGhee faculty and staff members are committed to ensuring your success. Comprehensive support services can help you to meet any challenges that may impact your studies, whether they are of an academic, financial, work, or health-related nature. At McGhee, we are sensitive to the concerns of students and are eager to answer your questions and to support your progress.

Advising

Staffed by professional advisors with advanced degrees, the McGhee Advising Office is dedicated to helping students to navigate through their educational experience successfully. All new students are assigned an academic advisor who provides assistance, support, and a personal connection to the University.

Your advisor will engage you in a collaborative process to address your needs and to learn about your educational preferences. He/she can discuss any concerns or questions about academic and career goals, degree requirements, student services, and School and University-wide resources. Advisors:

- Discuss your education and career goals and objectives
- Track your academic progress and ensure that you are fulfilling degree requirements
- Provide guidance regarding majors, concentrations, electives, and general selection of courses
- Identify gaps in your education and help you to make decisions as to how they can best be addressed

Faculty Advisement

In addition to the support from the McGhee Advising Office, undergraduates benefit from one-on-one faculty advisement. A full-time faculty member in your program of study will help to guide you in your chosen major or concentration. Drawing upon their own knowledge and experience, faculty advisors provide discipline-specific advice to broaden your horizons and to help you to define your post-graduation goals.

Tutoring

McGhee’s tutoring service offers one-on-one tutoring sessions at no charge to McGhee students. Tutors act as learning partners who support your academic progress and who are available at times that fit your busy schedule. McGhee tutors, who provide services in a range of subject areas, help students to clarify and to review material covered in class, as well as to understand the methodologies required to successfully complete their assignments.

NYU Libraries

The University’s library system is comprised of more than 4.7 million volumes located at 15 locations across the city and overseas in Florence, Italy and Abu Dhabi, United Arab Emirates. Library resources include articles accessed via database, e-journals, and video and audio recordings, all available throughout the library branches.

Information Technology Services

Information Technology Services (ITS) is the central NYU organization for technology-based services for students, faculty members, staff, and administrators. ITS provides computer services, Internet resources, information, training, and technical resources to help the University community connect, collaborate, and excel.

NYU Bookstore and Computer Store

The NYU Bookstore carries textbooks as well as a large selection of general trade books, faculty author titles, and NYU clothing, gifts, and stationary. The Computer Store offers computer software and hardware at student discount prices.

Request Information

The admissions staff looks forward to learning more about you. We are here to partner with you throughout the admissions process, so please do not hesitate to connect with us.
